

Yifei XIAO

✉ xiaoyifeibupt@bupt.edu.cn · ☎ (+86) 152-1083-0587 · 🏠 <http://xiaoyifeibupt.github.io>

🔍 OBJECTIVE

- Software Develop Engineer

🎓 EDUCATION

Beijing Univ. of Posts and Telecommunications (BUPT) 2013.9 – Present

Master student in Computer Science and Technology (CS), expected March 2016

Beijing Univ. of Posts and Telecommunications (BUPT) 2009.9 – 2013.6

B.S. in Information and Computing Sciences

👜 EXPERIENCE

Samsung Communications Technology Research co., LTD 2014.7 – 2015.4

Software Development Intern

Brief introduction: ASR Auto Speech Recognition and NLU, Natural Language Understanding.

- Designed and implemented a part of the engine, which is a server for managing (control, monitor, communicate) the Designed and implemented
- Designed and implemented an android application for the engine, so we can manage the Designed and implemented on mobile terminals
- Linux C/C++, Java, JNI, jetty, Android ADT

Defect Testing System(DTS) 2013.9 – 2015.7

Software Development(Java) National 863 Project, studied with my tutor

Brief introduction: DTS is a set of testing tools, which is based on the software defect.

- Designed and implemented a defect mode() about C, by using the Javacc to create an AST(Abstract Syntax Tree) and scan the possible nodes
- Responsible for maintaining this System and fix some bugs in actual scene
- Java, Eclipse

xhttpd, my http server 2015.5 – Present

Linux C++, Maintainer Individual Project

a simple http server, <https://github.com/xiaoyifeibupt/xhttpd>

- Designed and implemented by using event-driven, Non-blocking IO, one loop per thread model, epoll
- support for POST and GET method, CGI, Accesss to files and directories, Error processing(404)

xMultiThread, my thread library 2015.5 – Present

Linux C++, Maintainer Individual Project

a simple thread library, encapsulated by Linux C++, <https://github.com/xiaoyifeibupt/xMultiThread>

- Designed and implemented by using RAII, support for MutexLock, Condition, BlockingQueue, Count-DownLatch

⚙️ SKILLS

- Programming Languages: C++ > C > Java > Python
- Development: Network programming, Multithreaded programing
